

Foglight for Oracle Micro Offering

We know that often, our clients are looking for expert assistance provided in a time and cost-efficient manner. That's why we created our Foglight for Oracle Micro Offering.

Some clients utilize expansive environments that need work on a large scale, while others clients don't. This offering is expressly intended to get the new Foglight for Oracle client "up and running" as swiftly and affordably as possible.

So how do I get started?

- The first step is to order the Foglight for Oracle Micro Offering. This can be done on our webpage or over the phone at 888-667-2621.
- We will then schedule a Readiness call, followed by the Micro Offering.

What's next?

- **Readiness Call:**
 - Determine the size server needed for the Foglight Management Server
 - Create and distribute a detailed preparation list
 - Create and distribute an efficient Micro Project Plan
- **Foglight Installation & Configuration:**
 - During your planned WebEx session, our Quest-Certified Foglight Expert will work directly with the Foglight Administrator to install and configure:
 - Foglight Management Server (FMS)
 - Foglight Oracle Cartridge
 - Once the FMS and Oracle Cartridge have been installed and configured, any remaining time will be utilized for rule configuration, knowledge transfer, and/or site specific documentation, determined by the client's goals.

What if we need additional time?

- Some clients want further knowledge transfer while others need our assistance with the preparation work. No matter what you need the extra time for, we can accommodate through our online ordering system.

Time Allocation

- Readiness Call
- Preparation List Created
- Micro Project Plan Created

Time: 2.5 Hours

- **Foglight Installation and Configuration**

- Ensure preparation is completed (and finish it if it isn't).
- Install and Configure FMS
- Install and Configure Oracle Cartridge

Time: 17.5 Hours

- **Time Permitting**

- Knowledge transfer
- Rules set up
- Site-specific documentation

Total Time: 2.5 Days (20 hours)

LeadThem Consulting Services

LeadThem Consulting utilizes expert resources with definite expectations to ensure that every single project is successful. This offering is intended to provide maximum return on investment as swiftly as possible. Every member of the Lead Them Consulting team is dedicated to sharing their knowledge, commitment, and experience with every single one of our clients.
