

Search Engine Optimization (SEO) Offering

At the rate the Internet has expanded in the past decade, visibility has become a serious concern for many businesses. You may be the best at what you do. You may have a brilliantly-designed website that perfectly showcases your products and/or services. However, it won't do you a lot of good if potential customers can't locate your site among a sea of competitors. That is where a LeadThem Consulting SEO Custom Package comes in.

Key Benefits

SEO Custom Package Benefits

- Allows you to tailor your website to achieve the best possible results for relevant keywords on search engines such as Google
- This can be accomplished via specialized content writing and optimization of the HTML titles and tags on your website
- Create a link structure within your website itself

Approach

All our clients receive a customized optimization plan for your business' website. Our recommendation service includes the following:

- **Analysis** of your current website content
- **Examination** of your site's titles and tags
- **An overview** of the current targeted keywords
- **A report** detailing our recommendations for optimization
- **A sampling** of recommended keywords to target

How to get started

This SEO offering is currently available for \$800
